EDUCATION

- **MACHINIST COURSE**
NVQ Level 4 | 2023 - 2026
Sri Lanka-German Railway Technical Training Centre, Ratmalana
(lathe, milling, grinding, drilling, shaping, and slotting)
- **BASIC METAL COURSE (3 MONTHS)**
Sri Lanka-German Railway Technical Training Centre, Ratmalana
- **G.C.E. ORDINARY LEVEL COMPLETED**
- **G.C.E. ADVANCED LEVEL COMPLETED**

SKILLS

- Proficient in Microsoft Office
- Workshop safety & teamwork
- Mechanical system troubleshooting
- Lathe, milling, grinding, drilling Slotting
- Communication & problem-solving
- Intermediate Welding

LANGUAGES

- Sinhala (Fluent)
- English (Intermediate)

KAVINDU JANATH

MACHINIST

PROFILE

To obtain a full-time Technician position where I can utilize my machining knowledge, hands-on technical experience, and strong problem-solving skills to contribute to advanced manufacturing operations, support research and development projects, and grow as a skilled engineering professional.

WORK EXPERIENCE

- **LPG Engineering, Kaduwela** 2025 - 2026
 - Operated conventional machining equipment, including lathe, milling, shaping, and slotting machines.
 - Performed precision machining and assisted with mechanical fabrication and maintenance tasks.
 - Gained hands-on experience in welding for metal fabrication and assembly.
 - Followed engineering drawings, quality standards, and workplace safety procedures.1 Year + 1 Month
- **Trainee Machine Engineer**
 - Trainee Machine Engineer
 - Sri Lanka Railways - CME & Motive Power Sub Departments, Ratmalana & Dematagoda
 - Completed one year of practical training in machine engineering and railway mechanical systems.
 - Assisted with the maintenance, repair, and operation of railway machinery and locomotives.
 - Trained as a CNC Operator on the Underfloor Wheel Lathe for precision wheel machining and maintenance.
 - Applied engineering principles while developing technical and problem-solving skills.
