PROFILE

Final-year Logistics & Transportation undergraduate (GPA 3.48) with hands-on operations experience at Colombo International Container Terminals (CICT) across berth planning, ship and yard planning, procurement, and data processing. Proficient in CTOS (PACS & DIS), BAPLIE/TDR processing, and Power BI for logistics data analysis. Adaptable, detail-oriented, and looking to build a career in port, logistics and supply chain operations.

WORK EXPERIENCE

Operations Intern - Colombo International Container Terminals Ltd (CICT), Port of Colombo

January 2026 – July 2026

- **Berth Planning:** Assist with berth scheduling and plan preparation, assist to create and update vessel records in DIS and prepare berth-related operational reports.
- **Data Processing Section (DPS):** Manage BAPLIE and TDR uploads, resolve data discrepancies, and process container holds/releases using DIS.
- **Ship Planning:** Support ship planning activities including stowage planning, crane allocation, and handling of special cargo using Ship Editor.
- **Control & Yard Operations:** Monitored real-time operations via PACS/DIS and supported equipment and truck flow coordination.
- **Gate House Operations:** Gained exposure to day-to-day gate operations and vehicle/container clearance processes.
- **CICT Gate House Auto Gate Function Card Project:** Assisted with data entry and card setup for driver and vehicle registration.
- **Procurement & Stores:** Source quotations, evaluate suppliers, issue purchase orders, and coordinate deliveries, returns, and inventory.
